

420W PALM PLANER | PPM

MAGNESIUM

FEATURES

Magnesium Construction:	For superior strength, lighter weight and increased durability
Slim Handle Design:	Easy to hold and control using one hand
60mm Planing Width:	Ideal for fast material removal on small to medium sized workpieces
0–1.5mm Adjustable Planing Depth:	For the removal of up to 1.5mm of material in one pass
Fully Cast Base:	To ensure flatness and increased accuracy of cut
Rubber Grip Handle and Switches:	For comfort of operation and a more positive grip
Power Lock–Off Switch:	Preventing accidental operation
Blade Protection Foot:	Prevents damage to the blades when the planer is resting on a surface, and conveniently hinges out of the way during use

ACCESSORIES

Spare Drive Belt
Spare Set of Blades
