

**MARLDON MXC710
CLEAN CARE
(CONCENTRATE) 1 LTR
950059**

PRODUCT DESCRIPTION

Marldon Cleancare Concentrate MXC710 is designed specifically for the frequent cleaning of oiled and waxed finish wood floors, as well as other washable wooden surfaces. Cleancare contains water additive with natural vegetable soaps and natural wash-active substances.

All ingredients allow for easy, effective and gentle cleaning of wood floors whilst leaving a non-streaky, long lasting finish. Economical and non-foaming, can therefore be used in automatic cleaning machines.

Dilution: 2 caps per 5ltrs of water.

Contents	Natural based washing substances. Natural caring and aroma substances.
Coverage Rate	2 caps = suitable for approx. 5ltr of water. (1 cap contains approx 10ml of MXC710 Concentrate).
Packaging	Available in 1ltr plastic bottles. 6x1ltr bottles per box.
Shelf Life	In closed container unlimited.
Odour	Mild, odourless when dry.
Storage	The liquid product is not susceptible to frost.
Ingredients	Water, < 5% non ionic surfactants, < 5% anionic surfactants, perfume, preservative: bronopol, phosphate free, without bleach.

This information is given to the best of our knowledge but without liability.

- ✓ Non-foaming, therefore can be used in automatic cleaning machines
- ✓ Leaves a non-streaky finish when dry
- ✓ Economical and non foaming
- ✓ Cost effective concentrated cleaning liquid

MARLDON MXC710 CLEAN CARE (CONCENTRATE) 1 LTR 950059

PREPARATION

Sweep the surface of the floor with a soft broom or dry microfibre mop to remove all loose particles and dirt.

Always shake the bottle well before use.

APPLICATION

Marldon Cleancare is a concentrated solution, the dilution guidelines are as follows:

Two caps of cleancare are to be added to approximately 5L of clean water.

Mix in a separate container. Apply with a well wrung out mop, microfibre mop or clean cloth. If the floor becomes too saturated with liquid, wipe away any excess with a clean dry cloth.

Due to its anti foaming properties Marldon cleancare concentrate can also be used with mechanical cleaning equipment. for example on a heavily soiled floor with a red nylon pad and a slow speed buffing machine.

Recommended for use approx once per week or as seen necessary on the floor dependant on the level of foot traffic and environment that the floor is located in.

For wooden floors only

After some time the floor may become dull and tired looking, in this case, usually the day to day cleaning products have become ineffective. A stronger periodic maintenance product may be required to bring some life back to the floor.

For oiled and waxed surfaces Marldon Liquid Wax Care is recommended.

For Lacquered surfaces Marldon Refresher is recommended.

For further information on the products please see the individual technical data sheet.

Marldon Liquid Wax Care: 950058
Marldon Refresher: 650087

HEALTH & ENVIRONMENT

Keep out of reach of children

- Do not bring into contact with victuals and animal food
- Do not fill into containers normally used for food and drink
- In case of contact with eyes, rinse immediately with plenty of cold water.

Usual precautions for handling chemical products should be considered.

- Ensure adequate ventilation.
- Use protective goggles and gloves.

Refer to Health and Safety data sheet for further information.
