130°C

Solvent Free

Function description

Our innovation: The outdoor hot glue stick PUR! Experience the strength and durability your projects need with the Ø 11 mm PUR glue stick. The polyurethane adhesive is weather and moisture resistant and lasts for a long time. The ideal solution for projects that require high temperature resistance and a reliable and durable bond, even under extreme conditions such as outdoors. It's great for a variety of materials, including wood, plastic, metal and more. Whether for craft projects, repairs or industrial applications. With our hot glue guns MG 3011, MG 5011 and the GM 7011, its low processing temperature of 130 °C can be set, after max. 25 seconds it is firm and loadable after approx. 50 seconds, final strength after 72 hours. Important note on use: At the end of the application of the polyurethane adhesive or after 8 hours at the latest, the glue gun must be cleaned with the detergent stick.
